

# Safety Equipment

## 1. Helm Pemadam (lokal)

**Rp 850.000**

- Original material
- Clear vision
- Anti scratch
- Long life
- Good surface

## 2. Masker

**Rp 1.650.000**

- Full face respirator
- Polycarbonate material
- Wide vision visor
- Made in Italy

## 3. Sarung Tangan

**Rp 825.000**

- Aluminized material
- Length 14"

## 4. Baju Nomex IIIA

**Rp 1.650.000**

- Maintain thermal protective performance throughout useful life of the garment
- Thermal protection will not wash or wear out
- Flame resistant (durable)
- Does not support combustion
- Non melting
- Low smoke and not toxic at high temperature
- 4,5 oz

## 5. Sepatu Pemadam

**Rp 1.425.000**

- Complies with EN 345
- Natural and synthetic materials
- Steel toe cap in the footwear protects the wearers' toes against the risk of injury from falling objects and crushing when worn in hazardous working environment
- Impact resistance: 200 joule
- Compression resistance : 15000 newton

## 6. Kampak Kuningan

**Rp 1.275.000**

- Bahan kuningan tempa
- Panjang 220 mm
- Multi fungsi (pemotong, pengungkit, pemukul dan pembuka hydrant)

## 7. Fire Blanket

**Rp 825 rb ; 900 rb ; 1,275 jt**

- Standard EN 1869 : 1997
- Fiberglass material
- Thickness : 0.4mm
- Temperature resistance : 550°C
- 4" X 4" ( 1.2 m x 1.2 m)
- 4" X 6" ( 1.2 m x 1.8 m)
- 6" X 6" ( 1.8 m x 1.8 m)

## 8. Breathing Apparatus

**Rp 19.500.000**

- The b.a. is fitted with one 3
- Liters Cylinder at 300 Bar for a duration of 30 mins
- Weight : 9,6 kg
- Made in Italy

## 9. Evac + Chair 300H

Rp 21.750.000

- 136 kg capacity carrying weight
- yet weighs less than 10 kg
- strong aluminium construction
- super strong pvc coated nylon pocket seat
- clear instructions permanently printed on seat reverse
- heavy duty cushion wheels
- textured finish for improved grip
- sliding headrest & forehead restraint
- unique cantilever design
- padded back & seat tubing
- safety seat belt with quick release buckle
- quick release kick-stand
- self-supporting with evac+stand

## 10. Cree Led 500 Lumens

Rp 300.000

- Material from aluminium alloy
- Waterproof and shockproof, it uses the luxeon 3 Watt LED bulb which lasts up to life 100,000 hours
- Powered by 3 pcs aaa batteries or 1 pcs 18650 rechargeable batteries (1800 mA), the charger is easy to take
- Rotate the head to adjust zoom dimer
- Push-button tail cap switch, three level of out put. First push into the high light out put of production, the second push into the low light output capacity, third push produce flash
- Steel body clip, easy to carry

## 11. Villager Safety Boot "Harvik"

Rp 1.680.000

**Model :** 9786

**Feature & Characteristic :** the upper boots make from high quality rubber resist to high heat temperature, flame resistant, water tight, chemical resistant, chemical. Protected with kevlar inner liner. The out sole resist to high temperature, up to 300 degrees celcius, oil/chemical resistant. provided with steel toe, impact resistan to 200 joules and puncture resistant, meets to EN ISO 20345. Compliance to CE 0321, MS 1599:1998, Australian standar AS/NZS 4821 : 2006

## 12. Immobilizing Stretchers

Rp 300.000

**Model :** Foldabled Stretcher

**Merk :** Villager

**System :** - Two fold

- VST.001 two part foldable

**Dimension :** 2060x530x140(mm)

**Loading bearing :** <159 kg

**Feature and characteristic :** this folding stretcher is made of high strength al-alloy and oxford material. it's portable, light weight, safe to use and occupies small space. commonly used in hospitals, gyms, ambulances and army to carry the sick and wounded. the stretcher can be folding two part, for easy to store

## 13. Immobilizing Stretchers

Rp 1.960.000

**Model :** Foldabled Stretcher

**Merk :** Villager

**System :** VST.002 Four Part Foldable

**Dimension :** 2060x530x140 (mm)

**Loading bearing :** <159 kg

**Feature and characteristic :** this folding stretcher is made of high strength al-alloy and oxford material. it's portable, light weight, safe to use and occupies small space. commonly used in hospitals, gyms, ambulances and army to carry the sick and wounded. the stretcher can be folding two part, for easy to store

## 14. Immobilizing stretchers

Rp 18.900.000

**Model :** Basket stretcher

**Merk :** Villager

**system :** VBST.004 Basket Stretcher

**Size (used) :** 1300x680x300 (mm)

**Size (unused) :** 2200x650x180 (mm)

**Net weight :** 20 kg loaded bearing :app 160 kgs.

**Frature and characteristic :** the stretcher is made an eye on a very wide range of emergency situation and as it is study and flexible to use. It is a must for all types of aid in special situation. You can split it into two parts, making it compact and easy to transport

## 15. PAB Helmet Type Fire 03

*(call us)*

## 16. PAB Helmet Type Fire HT 04 Composite

*(call us)*

## 17. Castong Hand Gloves

*(call us)*

### 18. Masker NP306

**Rp 50.500**

### 19. Pakaian Pemadam Kebakaran

- Terdiri dari : baju & celana
- Bahan dari NOMEX III.A (4,5 oz dan 6,0 Oz, Flame Retardant
- Cotton 100%
- Standar NFPA 2112

**Rp 5.500.000**

### 20. Kacamata Pelindung Kebakaran

***(call us)***

## 21. Baju Tahan Api

**Rp 8.500.000**

**Merk :** GUJOODAE

**Material :** Aluminium Film Coated

**Toleransi :** mulai 200 s/d 400 (°C)

**Feature Characteristic :** Heat-insulation suit for fire-fighting DS-BJ.0009. The DS-BJ.0009 heat insulation suit for fighting is made with a flame-resisting. Fabric coated and an aluminum plated film compound material and no asbestos .It consists of jacket, gloves, hood and foot cover and posses light , high strength, flame-resisting heat-insulation, heat radiating-proof, wear-proof, fold-proof, as well as harmless for human-body, it can effective protect the fire-fighter and the operator who working at high temperature place from flame and high temperature and meets the regulation of the standard for the performance place from test method of heat insulation suit for fire-fighting, the suit for shipping is authorized by china classification society of shipping

## 22. Sarung Tangan Tahan Api

**Rp 1.000.000**

**Merk :** American Firewear
