

- Flame retardant and high temperature resistant materials.
- Mainly made from aluminum foil composite.
- It consists of a hood, coat, suspenders, gloves and insulated shoes.
- Protects from heat radiant, oil and gas fire and fire metallurgy, glass, enamel, cement, chemical, and thermal power industry.

<b>Structure</b>	:	<b>3 Layers</b>
<b>Outer layer</b>	:	<b>Aluminum foil composite flame retardant glass fiber, 500g+-10g/m<sup>2</sup></b>
<b>Thermal layer</b>	:	<b>Aramid retardant insulation mat</b>
<b>Comfortable layer</b>	:	<b>Lining natural fiber fabric.</b>
<b>Accessory</b>	:	<b>Hood, Jacket, SCBA backpack, pants, gloves, insulated shoes</b>
<b>Heat resistant</b>	:	<b>550 degree celsius radiation</b>
<b>Visor material</b>	:	<b>PES + silicon oxide/silver coating, 3mm thickness</b>
<b>Inside Helmet Material</b>	:	<b>HDPE</b>
<b>Weight</b>	:	<b>6.2kg</b>
<b>Size chart</b>	:	<b>S: 160-165cm; M: 165-175cm; L: 175-185cm; XL: 185cm</b>
